PROFESSIONAL SUMMARY

SAP-certified Business Intelligence professional (4x SAP certifications, including Data Analyst – SAP Analytics Cloud) with hands-on ERP/BI experience across SAP BW/BPC, SAP S/4HANA, and Cegid PMI environments. Builds Power BI dashboards, optimizes SQL queries, and automates reporting workflows with Python to turn raw operational data into decisions cross-functional teams can act on.

SKILLS

BI & Data Visualization: Power BI, SAP Analytics Cloud (SAC), EPM Add-in, Analysis for Office (AFO), BW Query Design

Data Analysis: Data Cleaning & Transformation, SQL Query Optimization, Business Intelligence, ERP Data Workflows

Languages / Backend: Python (Flask), Laravel, Java, ABAP

Databases: MySQL, SQL Server, SQLite, MS Access, MS Excel (Advanced)

ERP Systems: SAP S/4HANA, SAP BPC, Cegid PMI

Other: Agile Methodologies, Project Team Leadership, Analytical Thinking (Certified Dale Carnegie Training)

Languages Spoken: Arabic (Native), English (Fluent), French (Intermediate)

EDUCATION

Master 1 in Business Intelligence | Mohamed El Bachir El Ibrahimi University, Algeria 2025

Bachelor's Degree in Information Systems and Software Engineering | Mohamed El Bachir El Ibrahimi University, Algeria 2024

SAP Young Professionals Program | Official SAP career development program Mar–May 2025

- ERP system integration, SAP S/4HANA workshops, simulations, and international business process case studies.

CERTIFICATIONS

- SAP Certified Associate – Data Analyst, SAP Analytics Cloud (C_SAC)
- SAP Certified Associate – Business Process Integration with SAP S/4HANA (TS410)
- SAP Certified Specialist – Implementation Consultant, SAP S/4HANA Cloud Private Edition (S4C03)
- SAP Certified Associate – Back-End Developer, ABAP Cloud (C_ABAPD_2309)

PROFESSIONAL EXPERIENCE

Data Analyst & ERP Support Specialist | Géant Electronics — Algeria Jan–Jun 2025

- Built and maintained 4–6 Power BI dashboards used across multiple departments, giving leadership real-time visibility into operational and financial metrics and replacing manual reporting.
- Partnered with the commercial team on budgeting and revenue analysis, reconciling accounting entries and revenue (chiffre d'affaires) data in the ERP to support financial reporting.
- Diagnosed a stock-data corruption issue (caused by network delays) affecting nearly all articles in Cegid PMI and blocking production; analyzed depot/lot-level stock against movement history and built an automated tool to detect and correct affected records, restoring accurate stock data company-wide.
- Served as the primary ERP support resource for Cegid PMI across 30–50 end users, resolving system navigation and configuration issues and reducing ticket resolution time.
- Enhanced an internal Python Flask platform for managing Cegid PMI configurations, improving processing speed by nearly 30% and expanding data handling capacity.
- Led the full Cegid PMI launch within the after-sales service department, driving end-user adoption across 10–20 staff and gathering functional requirements post-testing.

SAP BPC Consultant | CNPC / Beijing Richfit International June 2026 — Present

- Support planning, consolidation, and reporting processes as an SAP BPC consultant for Sonatrach on the SHONE project, supporting activities across Sonatrach's operations in Algeria.

- Completed specialized training in BW Query Design and Security Design within the SAP BPC/BW landscape.
- Build and maintain reports to support business decision-making.
- Apply BPF (Business Process Flow) configuration to structure and monitor planning and consolidation processes.
- Develop reporting deliverables using EPM Add-in and Analysis for Office (AFO) for end-user consumption.

Backend Developer & Dev Team Leader | *Freelance / Dev Group Service — Remote*

Oct 2024 –

Present

- Led 3–5 backend software projects using Laravel, delivering client platforms and internal tools on schedule.
- Managed databases and server-side logic for scalable web applications.
- Supervised a remote team of 4–6 developers using Agile methodologies, running sprints and code reviews to hit delivery deadlines.

Intern — Transit and Customs Office | *Transite Baghouira — BBA, Algeria*

Sep – Nov 2021

- Assisted in logistics documentation and improved digital workflows.

PROJECTS

Jewelry Store Management System | *Java, JavaFX, SQLite — Individual Project*

- Built a complete retail management application with inventory, POS, and reporting modules.
- Designed the system using MVC architecture for maintainability and scalability.

Olive Palace Digital Platform | *Laravel, React (Vite), MySQL — Lead Backend Developer* | *olivepalace.net*

- Engineered the backend for Algeria's first digital olive industry platform.
- Integrated services and content for experts and users in a scalable architecture.

LatinaDZ E-Commerce Platform | *Laravel, MySQL — Full-Stack Developer (Freelance)* | *latinadz.com*

- Built a full-stack e-commerce platform for a freelance client, handling backend logic and frontend implementation.
- Designed and delivered a modern, minimalist interface with smooth, intuitive navigation.
- Implemented responsive product browsing, cart, and checkout flows optimized for desktop and mobile.
